

Super Talented Young Horse

Palomino – Mare – 16.3hh – 2017

Westhill Jasper B X Hurikan

This is a really stunning mare with the movement to match her stunning good looks. She has 3 huge, ground covering paces with a super hindleg and incredible trainability. She is super responsive and loves learning new things.

Her breeding has Grand Prix written all over it; with her father reaching Grand Prix at the age of 9 and successfully competing nationally with his incredible free moving shoulder and active hindleg which Peachy has inherited.

This is a mare that will really go up the levels in dressage and is showing all the ability and potential to go all the way. She loves her work and would keep going for ever with energy to burn! She has competed in her first few dressage competitions and really enjoyed being in a new environment and wasn't spooky or difficult.

Peachy also hacks and does pole work and is super to handle

More than enough talent for a professional rider to take through the levels.
